My dog Romulus, a three-month old puppy, had been sick for some time. We brought him to the vet twice, and then finally they kept him there overnight. It turned out that he had a rotavirus.

While they were doing some tests and keeping him under observation, I prayed a lot to Dora, since I have a lot of devotion to her and I trust her because she has made miracles happen and has helped me a lot. Today my puppy is at home, happy and healthy.

I always pray to Dora, and she helps me too much. Especially when I studied clothing design, which went very well for me. Thank you, Dora.
