My Skin Became Completely Clear

I wish to testify to a healing I received while making a novena to St Josemaría Escrivá, founder of Opus Dei.

08/31/2023

I have suffered for a few months with a breast lesion which was not getting any better. I went to my doctor who sent me on to a consultant at the Breast Clinic for further investigation. Initially, no malignancy was detected, but the lesion was a worry, continuing sore,

raw, with no signs of healing. The surgeon completed a biopsy since she was not clear what she was treating. The biopsy was completed and the stitches were removed on 22 May 2023, with a follow-up appointment for 26 May.

On 24 May, without treatment, my skin became completely clear of any rawness or soreness. My skin has remained perfect, and I do not require any further treatment. Thanks to St Josemaría Escrivá and Jesus – I am healed!
