

Paquita the dentist

I have always had problems with my teeth, and have a bridge which is supported on one back tooth.

07/27/2020

While in the middle of the coronavirus shutdown that tooth developed a painful abscess. Such a situation has always led to an extraction. I felt desperate — how to see a dentist, how to face the loss of tooth and bridge... I pleaded with Paquita Alvira "please, please, please help me out of this!" I took

antibiotics, and after some days the pain subsided. Now the tooth is back to normal, I am very grateful to Paquita for this favour.
