

Nuts and Bolts

I was cleaning the drain of a sink, and I was trying to tighten a bolt that would not fit back into place. I tried several times and nothing worked. But all that changed as soon as I said "DORA, NOW!"

06/06/2016

I was cleaning the drain of a sink, and I was trying to tighten a bolt that would not fit back into place. This had happened to me on another occasion and I had had to leave

without closing it, so I began to rush a bit.

I tried several times and nothing worked. I then said "DORA, NOW!" and at that exact moment, the nut fit back into place.

I am very grateful and I would like my favor published so that the power of her intercession might be better known.

C. P. (Spain)
