Hot Water!

For two days we didn't have any hot water at home because the hot water heater was damaged, and at that time we weren't able to buy another one. We entrusted the problem to Dora.

For two days we didn't have any hot water at home because the hot water heater was damaged, and at that time we weren't able to buy another one. We entrusted the problem to Dora. While we were asking her, and

before anyone had tried to repair it, what a surprise! Hot water started flowing for us. Later, a repairman came to look at it and found that there was nothing wrong. Dora's help is quick and concrete. Thank you!
