Pray with the Pope: For children with incurable diseases (February 2026)

There are very serious incurable illnesses and conditions that are not deadly but last a long time. It is especially dramatic for those who are at the beginning of their lives – for children and their entire family. In his prayer intention for February, Pope Leo invites us to pray that children suffering from incurable diseases and their families receive the necessary

medical care and support,
never losing strength and hope.
