I have written before about the many small favours I continuously receive from Dora. Most recently I was driving alone on a journey on the motorway. I noticed that every so often there seemed to be a small surge of acceleration from the engine. Then after a while, the situation got much more serious and the engine began to vibrate and chug in an uneven way. I stopped the car and before starting again I prayed to Dora to get me home safely and without incident. When I restarted the engine, it sounded and acted normally and I got home quickly and without any further mishaps. Not only that, but in the two weeks since then, there has been no repetition of the problem. Dora has often fixed domestic appliances for me but it seems she is also an auto mechanic! Many, many thanks Dora.
