The 170 photographs—snapshots of life—have been brought together in three chapters. The first and longest chapter relates to the beatification

day, 27 September. The second indicates briefly the paths leading up to this event. It begins with pictures from the life of the new blessed, touches on the phases of the beatification cause and ends with the preparations for the festivity. The third chapter shows scenes from the days of thanksgiving in Madrid and Rome after the beatification.

The final chapter gathers homilies and messages related to the beatification. With words of Pope Francis about Blessed Alvaro, we pray to God: "May his exemplary Christian and priestly witness stir up in many hearts the desire to draw ever closer to Christ and the Gospel."
