One morning I went out shopping for some work tools at a shopping center where I expected to find everything. From the outset, I had prayed to Dora's intercession that I would find

the things needed. But after 3 hours, I had only found one of the items I was looking for. Frustrated, I appealed to Dora again, and in this moment I remembered another place where I might find one of the missing items. At this other store, I ended up finding everything that I was searching for. I am sure Dora is the one who helped me remember that store.
