

Paying for an operation

"I entrusted the matter to Isidoro Zorzano's intercession with a lot of faith because his holy life edified me."

12/20/2016

I needed a routine operation, but it was going to be very expensive and my medical insurance wouldn't cover the cost. I entrusted the matter to Isidoro Zorzano's intercession with a lot of faith because his holy life edified me, especially how he heroically practiced the virtue of

poverty, to the point of his concern to cover the expenses during his final illness.

The day of my operation I received a phone call from the insurance company, saying that they would take care of all my hospital expenses.

I'm convinced that this favor was due to Isidoro's intercession. I continue to ask him for things and pray for his prompt beatification.
