CTS publishes booklets about The Da Vinci Code

Two good resources have recently been published by the Catholic Truth Society.

06/04/2006

Cracking the Da Vinci Code is an easy to read booklet in question and answer format, written by Jimmy Akin, and provides quick, well-researched and insightful answers that debunk the most problematic points of the book.

The Truth about Jesus is a more measured reflection on the significance of *The Da Vinci Code*. In it the author, Fr Redford, argues that the most reliable answers to the question “Who was Jesus?” comes not from obscure texts but from the Gospels themselves.

Copies of both booklets can be ordered from the CTS:
