

Finding a Lost File

I needed to find a presentation that I had prepared the year before in order to give a course of Christian formation. I looked through all the documents saved on my computer, but I couldn't find it. I decided to turn to Dora, and I prayed, "Dear Dora, you know how much I need this presentation - help me find this."

I needed to find a presentation that I had prepared the year before in order

to give a course of Christian formation. I looked through all the documents saved on my computer, but I couldn't find it. I decided to turn to Dora, and I prayed, "Dear Dora, you know how much I need this presentation - help me find it."

Immediately after, it occurred to me that when I initially prepared the presentation, I had sent it to a colleague. Patiently and while praying to Dora, I checked through my emails and I managed to find the missing file.

I was especially happy to have found the lost presentation. Dora's help encourages me to put more effort into my work.
