

It Seemed Humanly Impossible

I am writing to report two favors which I received in the last year through the intercession of Dora. Thanks to her, I was able to find and keep the job that I love.

I am writing to report two favors which I received in the last year through the intercession of Dora. Last summer, I returned to Spain after a year in England, where I had not been able to find a good job. I felt

quite lost, not knowing where or how to start looking for work.

In August I heard about Dora and one of her favors which made a deep impression on me: she had found a solution to a problem which seemed humanly impossible. Then I thought, "If she was able to manage this issue which seemed impossible and she was a leader in her profession...surely she will be able to find me a job!" I entrusted this task to her and began to pray a novena for her help. The day I began to pray I received a phone call inviting me to interview for a job which deeply interested me. However, I had the offer of another project and I couldn't do both. I knew I had to make a decision. I prayed again to Dora and a deep peace came over me, as if she had said to me, "Don't worry. Leave it to me; I'll handle this." And so I did. I prayed a lot and

the next day I turned down the project and went to the interview.

The selection process was complicated but quick. I completed all the tests and interviews within the week, and on Friday they told me that I had been selected for the position. Dora had done it!

After a month I completed my first contract and I was afraid that they wouldn't renew it. I asked Dora again to work out the arrangements to my advantage. I was so happy when they told me that they had made me permanent! Now I am asking her to keep helping me to do this job well.

From the very beginning I've been telling all my friends and acquaintances about Dora and spreading devotion to her. I've done this so much that several people I know have found work thanks to her.
