Where can I find more information about Opus Dei?

10/02/2006

The Prelature publishes an official bulletin, *Romana*, which contains documents and news about its activities. For more information see <https://en.romana.org>

For more information about St. Josemaría see www.josemariaescriva.info

For searchable online texts of all his published writings, see www.escrivaworks.org

In countries where Opus Dei has centres, there is an Information Office which journalists can contact. The addresses of these offices can be found in the Press Room section of this website.
