

Tomas, Paquita and a baby

I would like to write about a favor of Tomas and Paquita to my cousin and his wife. They had been married for more than five years without having a child.

10/05/2024

Most of us in the family were praying through different saints for God to grant them a child. Since I had heard about a couple whose prayer through the intercession of the Alviras for a

child was answered, I decided to start praying to them for my cousin.

I've been saying the prayer card for about two years almost every day and this year, the favor was granted. They got a baby boy in February!

When I went to visit them I told them about the favor and whether it was ok to write it and they said yes. I am sure the miracle happened as a result of the Alviras' intercession!

Thank you.
