Zawsze opowiadam o św. Josemaríi

V. C., Kanada

25-02-2013

I would like to thank St. Josemaria for helping me and my family. I had a massive heart attack. And it took 2 weeks to get a bed at the Health Science Hospital. From where I live we need to be flown out by air ambulance. I got a stent installed in the heart artery. Please pray because I still have many months for recovery. I'm spreading your prayer around too. I don't really remember

where I got the prayer card and website. But I always talk about St Josemaria and give the prayer to people that need help. God bless.
